

OWENS & MINOR® INVENTORY SOLUTIONSSM

**PHYSICAL INVENTORY
SIMPLIFIED**

QSIGHTSM VALUATION SERVICES

Good fiscal management includes having an accurate value of all on-hand inventory. Not having an accurate picture can lead to tax and/or financial implications, misallocation of inventory, and inconsistent or incorrect unit of measures.

Hospitals are required to complete periodic audits of their inventory. It's good financial practice. However, performing an inventory valuation can be costly, time-consuming, and labor-intensive.

QSIGHTSM VALUATION SERVICES, A PART OF OWENS & MINOR'S INVENTORY SOLUTIONS

Owens & Minor's **QSIGHTSM** Valuation Services can make your headache go away by providing accurate, cost-effective alternatives to your fiscal-year end requirements.

Owens & Minor has chosen to partner with industry-leading companies to provide two alternatives for managing year-end audits: iPad® technology powered by Z5 Health and outsourced resources and analytical tools by Data Solutions Corporation.

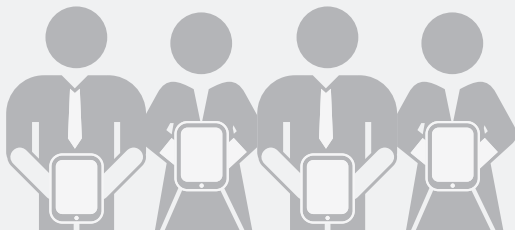

ABOUT OUR TRUSTED, PROVEN PARTNERS:

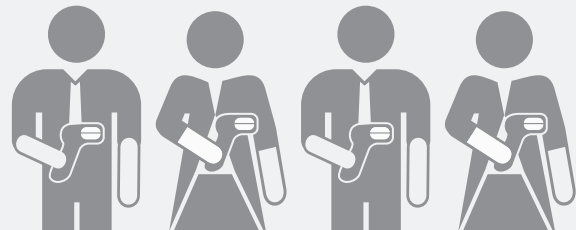

Z5 is a different kind of company which strives to create software solutions that deliver tremendous value while making it extraordinarily easy to use. The rest of the world has figured out how to do amazing things with friendly, focused apps.

Z5 thinks the same thing should exist in healthcare, improving patient care, reducing costs and making customers smile.

Data Solutions Corp

Data Solutions Corporation's focus is clinical inventory management. Specializing in ORs, Cath Labs, PACU, ASU, Anesthesia, IR Labs, Labor & Delivery, SPD, Pharmacies, their accuracy is imperative to a hospital's continued success. Data Solutions Corporation makes the elusive tangible.

Connecting the world of medical products to the point of care.SM

TECHNOLOGY POWERED BY Z5 HEALTH

Imagine a resource-lite, inventory count application that feeds data into a cloud-based portal. The results are synced to the hospital's finance department. Used by leading hospital and networks, Z5 Health is a proven technology solution.

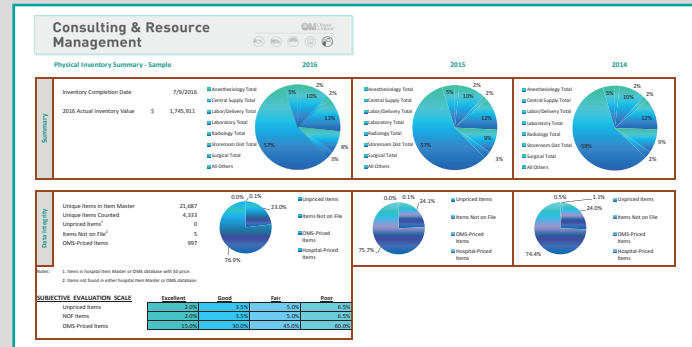

Inventory Valuations Services: Technology powered by Z5 Health utilizes cutting-edge iPad technology to allow hospitals to easily and accurately conduct their own physical inventory count. The technology provides:

- Perpetual and periodic counts
- Product look up fields
- Matched/unmatched product information
- Real-time integration into your hospital's finance department

OUTSOURCED POWERED BY DATA SOLUTIONS CORPORATION

Not all hospitals want to conduct their own inventory count. They want to rely upon experienced professionals who know what they are doing—and get it right. The first time.

Inventory Valuation Services: Outsourced powered by Data Solutions Corporations provides experts to quickly, and efficiently conduct periodic counts:

- Baseline inventory
- Counts all medical/surgical, pharmaceuticals, lab products
- Isolates expired products
- Utilizes an advanced QA and technology process
- Provides reports within an average 72 hour turnaround

“I USED Z5 TECHNOLOGY AND METHOD QUITE SUCCESSFULLY AT MY PREVIOUS HOSPITAL. MY STAFF WAS BLOWN AWAY BY THE EASE AND DETAIL OF THIS TECHNOLOGY.”

—Owens & Minor Customer

“MY HOSPITAL SYSTEM VIEWS DATA SOLUTIONS CORPORATION AS A TRUE PARTNER. THE ENTIRE DSC TEAM HAS COME THROUGH EVERY TIME. I APPRECIATE THEIR EXPERTISE, ATTENTION TO DETAIL AND CUSTOMER-CENTRIC APPROACH”.
