Logical Unit of Measure (LUM) Solutions: Get More Out of Your Supply Chain

Let us help you optimize your inventory levels, and maximize labor resources so you can spend more time on higher-value activities across more locations.

Scope, Scale and Service

33% less SKUs to set up and manage, one item number for all UOMs regardless of LUM or bulk ordering.

60% of our customers utilize LUM solutions, spanning over 4 million orders across 42 million lines, and billions of dollars in purchases every year.

99% fill rates via technologies and process management expertise enable the very best service.

25%-40%
less bulk storage labor

Redeploy Labor

With fewer orders flowing through bulk storage locations, less labor is required, supported by Owens & Minor's automation technology.

30%-60%
reduction in bulk inventory

Reduce Inventory

Right-size stock to improve service level while reducing stockouts and minimizing product expiration.

20%-80%
more warehouse or storeroom space available

Reallocate Space

Free up stocking locations for additional revenue generation or increased space for expanding product variety.

30%-50%
less clinician time spent on supply chain-related activities

Reaffirm Commitments to Patient Care

Minimize the amount of time clinicians spend on stock ordering, put-away and chasing down supplies in the case of stockouts.

**Results are not guaranteed and will vary depending on the facility goals, savings and solutions implemented.*
